

EduGenie Project Documentation

1. Project Overview

EduGenie is a web-based educational platform designed to provide interactive learning experience with structured content, dashboards, and user-friendly interface.

2. Objectives

- Provide easy access to learning materials
- Create interactive dashboard for users
- Improve digital learning experience
- Ensure responsive web design

3. Technologies Used

- HTML5
- CSS3
- JavaScript
- Python (Flask)
- Git & GitHub for version control

4. Project Structure

The project contains frontend files (HTML, CSS), backend file (app.py), templates folder for HTML pages, and static folder for images and styles.

5. Features

- Interactive dashboard
- Responsive UI
- Data visualization
- Easy navigation between pages

6. Conclusion

EduGenie provides a simple and effective learning interface that enhances student engagement through a structured web platform.
